#### **Network Interface Devices (NIDs)**

CVTC has 3,999 access lines as of 4/30/16 with metallic (copper) connections to the Central Office and their NIDs are powered from the Central Office.

CVTC has 3 access lines as of 4/30/16 with non-metallic (fiber optic) connections to the Central Office. These customers' NIDs are battery powered in case of emergency. The batteries are rated at 8 hours with constant use.

#### **Ability to reroute traffic around damaged facilities:**

CVTC has deployed various redundant facilities between its exchanges and interconnecting companies AT&T, GCI and ACS for further toll switching. These redundant facilities are in the form of SONET rings, collapsed SONET rings, and electronic equipment hardware sparing with some alternate physical facilities between Copper Valley Telephone, AT&T and ACS, its interconnection to the Public Switched Telephone Network.

Additionally, data traffic is routed from Valdez to Anchorage on a SONET ring which provides a diversified path should one route become interrupted.

#### **Capability to manage traffic spikes resulting from emergency situations**

Copper Valley Telephone Chitina exchange <CHTNAKXADS1> has 44 access lines/customers, switching capacity of 10,000 on-switch simultaneous calls, and transport capacity for 12 simultaneous calls off switch.

Copper Valley Telephone Tatitlek exchange <TTLKAKXA325> has 43 access lines/customers, switching capacity of 10,000 on-switch simultaneous calls, and transport capacity for 12 simultaneous calls off switch.

Copper Valley Telephone Mentasta exchange <MNTSAKXADS1> has 48 access lines/customers, switching capacity of 10,000 on-switch simultaneous calls, and transport capacity for 12 simultaneous calls off switch.

Copper Valley Telephone Valdez exchange <VLDZAKXA835> has 2,229 access lines/customers, switching capacity of 10,000 on-switch simultaneous calls, and transport capacity for 96 simultaneous calls off switch.

Copper Valley Telephone Glennallen exchange <GLALAKXA822> has 1,590 access lines/customers, switching capacity of 10,000 on-switch simultaneous calls, and transport capacity for simultaneous 96 calls off switch

Copper Valley Telephone McCarthy exchange <MCCRAKXADS1> has 42 access lines/customers, switching capacity of 64 on-switch simultaneous calls, and transport capacity for simultaneous calls 18 off switch.

Copper Valley takes no responsibility for the capabilities of interconnected networks to manage traffic spikes resulting from emergency situations, but will continue its best efforts for its network during such events.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**
